Kerullus Ashraf

Engineering Student | Interested in Embedded Systems, AI & Robotics | Web Developer (PHP, JavaScript, MySQL) | Skilled in C++, Python, and Full-Stack
Al Gharbiyah, Egypt

Summary

I am an engineering student at the French University in Egypt, specializing in Artificial Intelligence (AI), Embedded Systems, and Robotics. With a strong academic foundation in both software development and hardware engineering, I am committed to advancing the field of intelligent systems by integrating cutting-edge technologies to create real-world solutions.

Throughout my studies, I have gained expertise in various programming languages and technologies, including:

Programming Languages: Python, C++, JavaScript, PHP

Web Development: HTML, CSS, Bootstrap, MySQL

AI & Embedded Systems: ESP32, Voice Recognition, Bluetooth Communication

I have successfully applied my knowledge in the development of several projects, including:

AI-powered Voice Control System: A smart automation solution for controlling classroom devices using ESP32 and AI-based speech recognition.

E-Commerce Website: A fully functional and responsive website for a clothing store, incorporating modern web design principles.

Church Meeting Management Platform: A web-based system for managing attendance, reminders, and reports for church events.

I am driven by a passion for innovation, precision, and problem-solving. I am constantly seeking to expand my knowledge and

expertise, and I am eager to contribute to projects that push the boundaries of technology and have a tangible impact on society.

Let's connect to explore opportunities for collaboration and technological advancement.

―――――

Experience

كاتدرائية الشهيد العظيم مارجرجس بالمرحلة الكبري
Church Meeting Management Website
January 2025 - Present (11 months)
Cairo, Egypt

Developed a full-stack system using PHP, MySQL, Bootstrap, and JavaScript.

Managed users, attendance logs, automated reminders, and weekly summaries.

Designed with modern responsive UI and secure authentication.

elnaeam tex
E-Commerce Website for Clothing Store
November 2024 - Present (1 year 1 month)
Cairo, Egypt

Created a commercial website with product listings, contact forms, and client requests.

Focused on user experience and modern design using HTML, CSS, Python, and JS.

Integrated responsive design and interactive features.
